## **PRE-CONSTRUCTION NOTICE**

### **Blower Building Gas Header Upgrade & Gas Well Repair**

Dear Resident,

Please be advised that the City of Markham is proceeding with Blower Building underground gas header and drainage upgrades and gas well repairs within the German Mills Meadow and Natural Habitat (German Mills Meadow) property.

Following the last notification letter delivered in December 2024, we inform you that due to weather condition and material availability, the construction schedule for this work has been updated and the work will commence the week of March 17<sup>th</sup>, 2025. The work area will be fenced off from public access while the work is underway. The anticipated completion date for the work is approximately the end of April 2025. The Construction schedule may be subject to slight changes depending on the material lead time and weather forecast.

The Contractor for this project is Avertex Utility Solutions Inc. While there may be some minor inconveniences during the ongoing work, both the Contractor and the City Staff will work together to keep this disruption to a minimum. All areas disturbed during construction will be restored to its original condition and to the City standards and requirements and in compliance with MECP requirements.

Please feel free to contact the City of Markham Contact Center at (905) 477-5530 or the undersigned if you have any questions or concerns regarding this project.

Best Regards,

**Arthur Zalewski, P.Eng**
