

Utility survey test pit investigations at 7967 Yonge Street

Scheduled work period: Thursday, February 12, 2026

Timing: 7:30 a.m. to 3:00 p.m.

What is happening?

Crews working on behalf of Metrolinx will conduct two test pit investigations at 7967 Yonge Street to support the Yonge North Subway Extension Project. The excavations enable future construction and protect nearby buildings and infrastructure.

About the Yonge North Subway Extension

The Yonge North Subway Extension will transform the commute in York Region, Toronto and beyond by extending the TTC's Line 1 subway service north from Finch Station into Vaughan, Markham and Richmond Hill. This extension includes five confirmed subway stations along an extension of roughly eight kilometres.

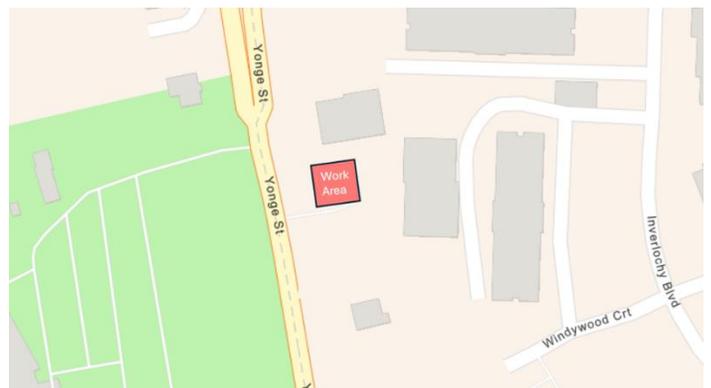

OVERVIEW OF WORK

- The work involves drilling two test pits below ground surface. Test pits are shallow, targeted excavations to confirm the location, dimensions, materials, and depths of underground utilities.
- Crews will excavate one pit at a time, and the work zone will be safely delineated. The work area will be restored and repaved at the completion of the workday.
- The anticipated drilling activities will require 1 day to complete.
- **Work may be rescheduled due to weather conditions or unforeseen circumstances.**

WHAT TO EXPECT

- Access to the properties at 7967 Yonge Street will be temporarily impacted between the hours of 7:30am to 10:00am, where the entrance driveway will be restricted down to a single lane.
- A traffic management crew will be on site to allow any vehicle traffic in and out of the property.
- Crews will conduct utility mapping using portable equipment, inspect utility infrastructure like hand wells, and excavate test pits.

- During this work, crews will be on-site with a hydrovac truck, core truck, mixer truck, and various handheld equipment.
- Residents may experience brief periods of increased noise during the drilling process. Noise and vibration levels will be closely monitored, and measures will be taken to reduce disturbances where necessary.
