

## Phase 2: Environmental Site Assessment (ESA) at 128, 130 & 132 Kirk Drive

**Scheduled work period:** May 18, 2026 until June 15, 2026

**Timing:** 8:00 a.m. to 5:00 p.m.

### What is happening?

The Phase Two Environmental Site Assessment (ESA) to be initiated at the properties located at 128, 130 and 132 Kirk Drive is to support the Yonge North Subway Extension Project. This phase assesses the environmental conditions of the soil and groundwater.

### About the Yonge North Subway Extension

The Yonge North Subway Extension will transform the commute in York Region, Toronto and beyond by extending the TTC's Line 1 subway service north from Finch Station into Vaughan, Markham and Richmond Hill. This extension includes five confirmed subway stations along an extension of roughly eight kilometres.

### OVERVIEW OF WORK

- The work involves drilling boreholes and installing monitoring wells to collect soil and groundwater samples for analysis.
- The anticipated work activities will require approximately one month. Field personnel may not be on-site continuously following the drilling.
- **Work may be rescheduled due to weather conditions or unforeseen circumstances.**

### WHAT TO EXPECT

- Residents may experience brief periods of increased noise during the drilling process. Noise and vibration levels will be closely monitored, and measures will be taken to reduce disturbances where necessary.
- Work crews will park vehicles within the driveways of 128, 130 and 132 Kirk Drive, and will not impede traffic on Kirk Drive. The work area will be clearly marked and/or fenced off to ensure public safety.
- Pedestrian access to sidewalks will not be impacted but pedestrians should exercise caution and stay clear of the marked off work areas.

- During this work, crews will be on-site with hand tools, equipment, and drums for storing groundwater.
